

MULTICOVER 955

MANUAL FILM SEALING MACHINE

With the Multicover welding machine, Ripack offers you the possibility to make your own bonnets.

The heat generated by your shrink gun combined with the design of this Multicover sealer creates a resistant weld for optimal protection of your goods.

The new MULTICOVER sealer is simple and easy to use and can accommodate two rolls of film up to 1.40m long.

No more storing bonnets of different lengths, cutting them on unsuitable bases, this film sealer will meet all your requirements.

It allows to produce bonnets or covers of different heights and formats starting from polyethylene film (gusseted tube, simple tube, metered (folded) film or simple film).

TECHNICAL SPECIFICATIONS

Item code	N°233581
Dimensions (without reel)	Width and height 3,28 ft (1m) length 5,58 ft (1.7 m)
Weight	176,37 lb - 80 kg
Max. reel length	4,59 ft - 1.4 m
Reel capacity	2 of Ø 500, 2 of Ø 300
Length of reel bar (ajustable)	4,92 to 7,22 ft - 1.5 to 2.2 m
Maximum weight per reel	176,37 lb - 80 kg
Position of the reels	modular
Maximum total load	462,97 lb - 210 kg
Welding width	adjustable
Reel brakes (hold unused film rollss)	
Packaging	Pallet 1.2 x 0.8 x 2 m 3,94 x 2,62 x 0,66 ft
Tool bag	Yes

EQUIPMENT SOLD SEPARATELY
