

Precise cut securely

EasyKnife, spring safety knife with interchangeable blade

Application

EasyKnife is ideal for applications where safety is paramount.

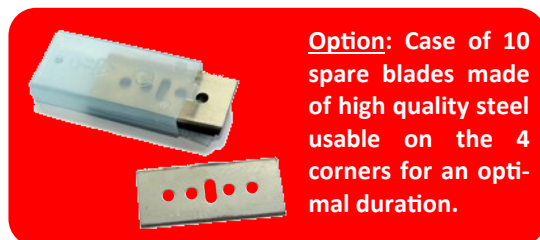

Perfect for cutting material, cardboard, film, plastic, paper, etc. up to 10 mm thick.

Safety

- EasyKnife fits safely in hand as in the pocket and does not cause any injury with the automatic withdrawal of its blade. No more cuts inadvertently or by mistake.
- Access to the blade is lockable for absolute security.
- EasyKnife is particularly appreciated for cutting cardboard and rigid materials that pinch and hold the blade out during cutting. The blade then retracts automatically into the handle.
- Its ergonomic design facilitates the handling.

Operation

- The blade slides out from handle by thumb action to penetrate the material and start cutting.
- The cutting depth is limited to 10 mm to prevent damage to the goods under their packaging.
- The handle has a hole of hanging at its extremity.

Option: Case of 10 spare blades made of high quality steel usable on the 4 corners for an optimal duration.

Overall length	110 mm
Overall width	33 mm
Net weight	32 g
Blade change time	10 sec
