

RIPACK 3000

FOR INTENSIVE AND RAPID WORK

Suitable for all your packaging jobs, the Ripack 3000 is the most flexible and the most powerful shrink gun in our range. Equipped with modular power, it is suitable for intensive use and has been designed to receive our extension system.

The performance of this shrink gun provides a fast and efficient working process. It can be used anywhere and is easy to handle.

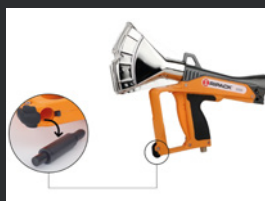

The short and rigid flame ensures precise work and optimum safety, which is also provided by the patented cold nozzle system and the Securipack gas pressure regulator.

It will follow you on all terrains, for pallet wrapping, building containment, boat wintering and protection of large industrial volumes.

These tools are used in many sectors such as industry, construction, food processing and transport/logistics.
