

MULTICOVER 960

THE PEARL OF WELDING MACHINES

Multicover 960 enables cost savings by easy self-doing of pallet covers of different sizes according to need from heat shrinkable polyethylene film rolls. Avoid the costly stock of various sizes.

Using Multicover 960 is easy and fast

- Begin the passage of 3 to 5 cm of the film between the sealing bars.
- Lower one of the levers to make a perfect welding of a 3 mm width seal using the adjustment of temporization according to the thickness of film.
- Set the meter to zero. Open the sealing bars then unroll the film at the exact desired length.
- Close the sealing bars to make a welding which will be next cover. No need to wait for the end of this sealing before cutting and using the cover.
- Cut the film by moving the sliding carriage knife and separate the cover by pulling it slightly.

The non-return, eccentric rollers maintain film in position.

The dispenser Multicover 935 allows using up to 5 reels simultaneously. With the casters the set becomes completely mobile.

TECHNICAL SPECIFICATIONS

Item Code	N°349025
Sealing method	Adjustable electrical impulse
Power supply	230V (50/60 Hz) - 24V . 0.5kVA
Cutting process	Sliding knife
Maximum sealing capacity	4 x 150 µ / width 1440 mm
Maximum admissible roll	Ø 500mm - width 1440mm - 220,46 lb - 100kg
Length/Width/Height	1920 x 600 x 1280 mm 75,6" x 23,6" x 50,4"
Weight	205 lb - 93 Kg
Maximum charge	441 lb - 200 kg
Package dimensions	2150 x 750 x 1450 mm 84,65" x 29,53" x 57,09"
Package weight	352,74 lb - 160 Kg
Package	Wood case - delivered assembled

EQUIPMENT SOLD SEPARATELY
